We Are Norbury!

Learners Today. Leaders Tomorrow. Make Every Moment Count!

What a vibrant and engaging half term we've had! Our Challenge Week, with its focus on E-Safety, has been a resounding success. Our pupils have been immersed in a variety of workshops and activities, all centred around personal safety. From water safety to insightful Police talks on E-safety, our children have been actively learning and participating in quizzes that have sparked interesting discussions about phone safety and passwords.

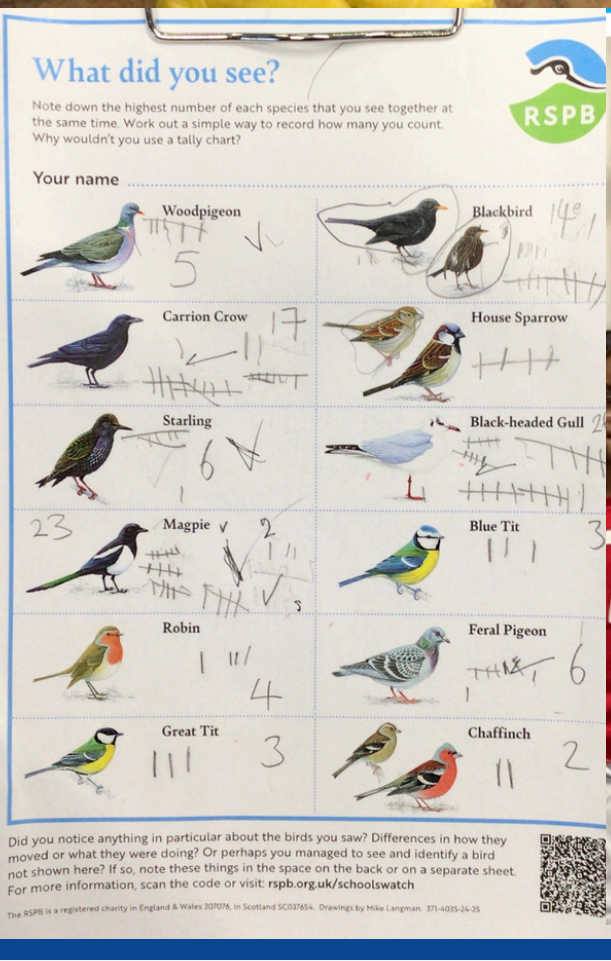
I'd like to encourage all parents to explore the resources we've made available and to have open conversations with your children about these crucial issues. For those who attended our E-safety parent workshop led by Tender, I hope you found it informative and helpful. Don't forget, the booklets from this workshop are now available on our website in the NMP News and Wellbeing sections. These resources provide valuable information about our RE:SET programme, which we're running in partnership with Tender. Links for Parent Controls advice is below.

NSPCC Online Parental Control advice
Internet Matters Parental Control Guide

For those interested in setting up parental controls, we've included links to useful online information on our website. To get a fuller picture of the week's events, please visit our NMP News link and watch the uploaded videos.

This term has been packed with exciting events beyond E-Safety. Our whole school participated in the Big Garden Birdwatch, contributing to the UK's largest citizen science wildlife survey. By taking part, our pupils are helping researchers understand the current state of our garden birds. We also celebrated NSPCC Number Day, raising an impressive £154.70 through maths-related activities. It's heartening to see our pupils engaging in both environmental awareness and charitable causes.

For our EYFS parents, we held a workshop on our approach to teaching maths. It was wonderful to see so many parents and carers actively participating, exploring the resources and teaching methods we use. The presentation from this workshop is available on our website in the NMP News area.



We learn in our own way and in our own time

I'm delighted to share that our parents and carers who attended CALAT courses have completed their exams and received certificates. Your commitment to learning sets a fantastic example for our pupils - well done!

Lastly, a gentle reminder about parking. O ur school is located on a residential road, and parking on yellow lines during restricted times causes disruption for other drivers and pedestrians. Please be considerate when dropping off and collecting your children.

Thank you all for your continued support and engagement in our school community. Together, we're creating a vibrant and nurturing environment for our pupils to thrive.

REMINDER

On a practical note, I'd like to bring your attention to a new NHS-funded service available at local Boots pharmacies. This service offers convenient access to advice and treatment for seven common conditions, potentially helping children feel better and return to school more quickly. The conditions covered include:

Earache (aged 1 to 17 years)
Impetigo (aged 1 year and over)
Infected insect bites and stings (aged 1 year and over)
Sore throats (aged 5 years and over)
Sinusitis (aged 12 years and over)
Uncomplicated urinary tract infections (UTIs) in women (aged 16 to 64 years)
Shingles (aged 18 years and over
No appointment is necessary, and if treatment is provided, your GP will be informed to update health records
